

## Cedar™ Direct Vent Gas Stove

### Modulating Remote Control

- Powered by 110v (Receiver) and 3 AAA batteries (Hand Held Remote)
- Remote Kit Consists of:

- Hand Held Remote

Benefits:

- Remote thermostat
- Three blower settings (low, medium, high)
- Blower ON/OFF
- Burner ON/OFF
- Burner has five height settings at 20% increments
- Childproof lock
- Sleep timer clock

- Receiver

Receiver mounts under firebox

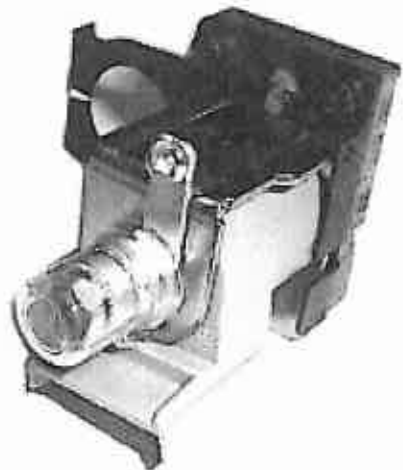

Attaches next to gas valve and plugs in with a simple molex connector

- NG or LP Regulator/Servo Motor  
Replaces the standard regulator that comes with the unit

When ordering you need to specify NG or LP

99300661NG

99300661LP

NOTE: Without power the unit defaults to low flame setting. Fan must be used on unit to use this remote
