* Some products are too heavy, too big, or too fragile to be sent by courier. The following items are subject to a freight surcharge. We will advise you before shipping the goods if your order falls into that category :
Refractory bricks, fireplace faceplates, ceramic log sets, heavy cast iron parts, oversized glass, insulation blankets, some blowers.

** Freight surcharges apply for next day or second day delivery in some regions.

Effective February 1st, 2006.

In the case of a crisis in the petroleum products industry, a fuel surcharge per heater will be applied according to the following table if the recommended fuel surcharge as published by the *Freight Carriers Association of Canada* is above 30% for truckloads or containers under 55,000lbs (25,000Kg):

FCA PUBLISHED SURCHARGE	\$/STOVE
< 30%	N/A
30% to 34.9%	3.00\$
35% to 39.9%	5.00\$
40% to 44.9%	7.00\$
45% to 49.9%	9.00\$

Should the FCA publish a surcharge above 50%, the above table will be adjusted.

The fuel surcharge will only be applicable to customers whose prices may include prepaid freight or who benefit from fixed freight rate brackets.

In addition, the fuel surcharge will be applicable only if the FCA published surcharge remains higher than 30% for at least 2 weeks. Should this occur, the surcharge applied by SBI will be in effect for a minimum period of 2 weeks.

The goal of the surcharge is to make commerce viable between SBI and its customers should a crisis occur. It would be unfair for customers to pay higher prices on SBI products if the current conditions do not justify it. Despite the effects of hurricane Katrina on fuel prices, the fuel surcharge published by the FCA has never reached 30% in 2005 (as of November 1st). As a result, we believe that the surcharge is not likely to be applied in 2006.

RAIL TRANSPORT

For certain destinations (particularly Western Canada and Western USA), rail transport is the only economically viable option for SBI to honour its prices. However, rail transport may represent substantially longer transit time. This is out of SBI's control. We therefore ask our customers to plan accordingly. If an order is particularly urgent, it is possible for SBI to ship via ground with an up charge.
